

Lunar Scout: Task-3

Krutarth  e-Yantra Staff

Nov 2023

This task marks the start of our journey with the hardware implementation of the “Lunar Scout” bike!

Task-3 is divided into 2 sub-tasks.

- Additionally teams who are getting the kit from e-Yantra, should perform **HARDWARE TESTING** as per the instructions given here & give confirmation on eYRC PORTAL.
- For Teams who are buying kit by themselves, should give the confirmation for the same on the eYRC PORTAL by the Task-3 deadline.

Task 3A : Arena Printing

In this sub-task you will be given the Arena image and the instructions to print it on required material. You will also have to create hurdles and do the correct placement of arena elements as per the given configuration.

Task 3B : Theme & Rulebook Questionnaire

To win the competition, you'll have to score well, following the conventions, rules and instructions as given in the “Theme Rulebook” - which is the most important document in this theme.

In this sub-task, you have to **study the Rulebook - and answer a few questions created by us - to test your understanding of the RULES.**

You have performed almost whole theme in a simulation environment in Stage-1. Hence you should have gained a good understanding of underlying concepts.

There will be a few questions to test your conceptual understanding of underlying concepts of the theme, & also to check quality, innovation and uniqueness in your design/approach/implementation.

Total Marks

Task 3A : binary (pass/fail)
Task 3B : 100

Deadline

Deadline for all sub-tasks of Task-3:
[14/12/2023]

Closed on Nov 9, 2023

Unlisted on Nov 23, 2023

Listed on Nov 23, 2023
